MORE CAMP FUN!

SPRING CAMP

If you simply can’t wait for all the summer fun at the Fleet, check out our Spring Camps, which will be held March 25-29, 2019. Each camp offers a full day of exciting science from 9 a.m. to 4 p.m., and your little camper can attend for the entire week or individual days. Campers in grades 1-3 will enjoy various STEAM-related activities throughout the week while older campers (grades 4-8) can try out the Computer Science & Technology Camps provided by ThoughtSTEM.

EXTENDED DAY SERVICES

Want more time at camp? The Fleet Science Center now offers extended day services! Early drop off is available 8-9 a.m., and late pick up is 4-5 p.m. Families can choose one or both options to meet their scheduling needs.

Foster your child’s love for science as well as their other interests!

The Fleet Science Center and other institutions in the park—including the Japanese Friendship Garden, the Air & Space Museum and others—participate in the Balboa Park Collaborative. Staff members escort children from one camp to another during a supervised lunch hour. So drop your camper off at one location and pick them up at another. On the ride home, you’ll hear all about their summer learning fun!

SCHOOL IS OUT, AND FUN IS IN!

Beat the heat this summer and turn your budding scientist into a happy camper! Join us at the Fleet Science Center for a summer chock-full of exciting experiments, intriguing investigations and science-themed fun! Fleet Summer Camps offer delightful discoveries for all ages, from Pre-K through 8th grade. Some popular camps include:

- **Sensational Senses**: Use your senses in this wild and wacky workshop! Create squishy, slimy flubber, design squeaky noisemakers and sniff your way around this zany camp to energize your five senses.

- **Bugs, Rocks & the Wild**: Grab your binoculars and safari hat—we’re off to explore the wild! Discover fascinating facts about bugs, rocks and the great outdoors.

- **Magic for Muggles**: Unleash your imagination and creativity while investigating the science behind potions, astronomy, magical creatures and more.

- **Chemistry With a Bang**: Explore the basics of chemistry through loud, colorful and shocking activities. Create chemical compounds, analyze acids and bases, make things glow and whip up a few explosive reactions.
